

# *Introducing UNILUX Aluminum Clad Wood Windows and Doors*

Aluminum Clad Wood Windows and Doors

THE GREAT BRAND FOR PROGRESS

# *UNILUX Aluminum Clad Wood Windows: Stro*

## *Exterior, the protection of Aluminum, inter*

Aluminum provides protection from the ill effects of harsh weather. The Aluminum cladding can be powder-coated or anodized in

almost any colour. Aluminum cladding provides a lifetime of use and resists corrosion.

*ng, weather-fight, beautiful and personalized!*

## *ior your choice of beautiful wood!*

Since we have many woods from which to choose, the warm appearance of wood provides for a comfortable atmosphere!

Since wood needs protection from the sun, rain and other forms of harsh weather, UNILUX has taken advantages of both

materials and created Aluminum clad wood that breathes. All windows and doors are custom sized and produced for your project.

# ***UNILUX Aluminum Clad Wood Windows: D***

The Aluminum-cladding is available in 182 different colours and three different surface finishes, Smooth, Matt and Textured.

The Aluminum-cover protects the wood for a lifetime.

The connection of Aluminum and wood is stable but flexible and provides the thermal management of drastic temperature changes.

The need of constantly maintaining the coating on the Aluminum cladding is negated with long lasting powder coated finishes.

Aluminum and wood guarantees the best insulation value!

The Aluminum-cover is maintenance-free!

If required: all windows can be upgraded with security locks and safety glazing. Many choices are available

## ***Outside Aluminum***

## hardware and accessories...!

lives in the home. The “personality” of the window is very important. Every fine home should have “personalized” windows. UNILUX provides this flexibility! Please consider: There are 182 different Aluminum-colours,

5 different species of wood, the 203 wood-colours and many different shapes from rectangular to triangular or round arched. Combine this with such functions as Turn/Tilt, Sliders, Fixed windows, Security hardware,

Muntins in different widths and Styles plus accessories, which provide the perfect finish to your home!

It really is your choice ...!

# *The UNILUX Quality Principle:*

Your authorized UNILUX dealer:

Quality control inspectors check each window individually prior to packaging. No window or door leaves the plant prior to a complete check that all products are manufactured, finished and packaged properly!

Custom made windows require custom service. For this requirement, UNILUX considers their dealers and partners in the market place. Thus we expect your window dealer to provide you service on a level commensurate with the superior windows and doors of your choice!
